

## Industrial Human Resources Forum Internship (研修型) Registration Sheet

Business Content	番号/よみ	48 -			
	Company Name	AirTec Corporation			
	Industry	Machinery			
	Company Work Description	<p>We develop and sell a 'Drain Timer Valve', an original in-house developed product. It has been delivered to heavy industry factories such as the former Nippon Steel and Sumitomo Metal; and lately, we have been working on expanding into Asia. In addition to the above products, we have been working on the development of new products. Currently, we are proposing to steelworks in Taiwan and taking on overseas expansion.</p> 			
	Location	〒 801-0808 Kitakyushu, Moji-ku, Kuzuha 1-5-15			
	Telephone No.	093-332-3302	FAX No.	093-332-3031	
	Established	May 1, 1987	No. of Employee	4	Average Age 30 years old
	Homepage	<a href="http://airtec-holdings.com">http://airtec-holdings.com</a>			
	Rep. Position	CEO	Rep. Name	Kiyofuji Takahiro	
	Company Information	<p>(Direct-Adoption type intern)</p> <p>We are still a small-scale company, but we have the ability for many personal choices and can make use of individual thoughts, skills, and ideas. We are creating many hit products using both the ideas and concepts of 30 year old field-oriented representatives and the knowledge of skilled seniors. In 2017, we finished 2nd in the Kitakyushu Future Business Plan Contest. He was also skilled in Public Relations, and last year's internship plan was published in the Nishi Nippon Newspaper. In the culture of "Let's try it anyway", the representative learned the technical part while being from the Humanities background. We are looking forward to your application for anyone that wants to create a tomorrow that is not here yet.</p> <p>※ Flexible Schedule Available</p> <p>(Performance)</p> <p>Products created directly from the ideas of the 2016 intern were commercialized. In 3 years, we have accepted nine people from the Kyushu Institute of Technology, Nishi Institute of Technology and National College of Technology.</p> 			

Company Name		AirTec Corporation					
Internship Summary	Internship Theme	New product development and marketing					
	Internship Work Summary	<p>•Development of original products and new drain timer valve products. •Marketing product spread.</p> <p>Our original drain valve timer project contributes to the safety, security, and comfort of factory workers. In steel factories, a lot of dust is in the air and can cause products to break. Other products are also used outdoors but are not completely waterproof. Our company has a high level for waterproof and dust technology that can solve these problems (IP standard Company plan: IP45 *Think about Sharp's waterproof phone, etc.*) This time, our intern can try things from planning to development with a company engineer, just like a real job, and have company experience with Representative Kiyofuji. This is an environment that makes the best use of individual ideas, thoughts, and special skills and where you can take on challenges. We welcome only those that can think creatively and challenge each other. 【Keywords】Development planning, waterproof, dustproof 【Recommended Major】Mechanical, Electrical/electronic, communications, materials</p>
